

SciChem Laboratory Furniture & Fume Cupboards

in association with **apmg**
LIMITED

Designing and Manufacturing Quality Laboratory Furniture for over 60 years.

Our skilled craftsmen work with the latest machinery and high quality materials to create laboratories that are comfortable, practical, robust and long lasting. We have installed furniture at many of the country's leading universities, hospitals, research institutions and commercial laboratories.

APMG's advanced range of fume cupboards is the result of many years of development.

Sound engineering and aerodynamic principles have resulted in a unit with smooth airflow into the fume chamber and efficient purging of fumes at all sash openings.

- Airform Range (BS 7258 / EN 14175)
